

## TEMPOLE™

### PORTABLE UTILITY POLE STANDS

#### PRODUCT IMAGES

#### FOR TEMPORARY OPERATIONS OF UTILITY SERVICES

When you're in the construction business or involved in utilities, it's critical that you have access to the equipment that is necessary to get the job done. There may be times when you have to make utility line repairs. If you need to stand utility poles up once they've fallen, our Tempole product provides the makeshift stand that you need.

- Ideally suited for storm restoration
- Quickly restore power, saving reliability hours
- Eliminates the need to call 811 (Dig Safe)
- Installs in under an hour
- A.W.S. D1.1 welding code
- Third party engineering approved

#### DIMENSIONS

Total Weight	4,500 lb
Stand Weight	1,000 lb
Ballast (1)	785 lb
Overall Height	6 ft
Width (with ballasts secured)	5 ft
Maximum Pole Height	35ft

#### WIND RESISTANCE & TIPPING TOLERANCE

Wind on Three Wires	39.82 lbs at 33'
Wind on Pole	300 lbs at 17.5'
Wind on Frame	172 lbs at 2.9'

Full engineering analysis with diagrams and data available upon request.
